Jimny
3-DOOR

SUZUKI

ONLY JIMNY

No other compact 4x4 has the features, the heritage, or the experience of the legendary Suzuki Jimny. For more than 50 years, this 4WD has been carving out a reputation as one of the toughest, most tenacious off-roaders out there. With its rigid ladder frame, high ground clearance and ALLGRIP PRO drive system, the Jimny 3-Door stays true to its origins of uncompromising off-road ability.

Silky Silver (Z2S)

White Pearl (ZVR)

CAPABLE IN THE EXTREME

The Jimny 3-Door is tough enough to take on the harshest conditions and most extreme environments New Zealand has to offer. Lightweight and seriously capable, the Jimny is equipped with Suzuki's ALLGRIP PRO 4WD system and a full ladder chassis allowing you to get into the heart of the wilderness.

ALLGRIP PRO

PURPOSEFUL. PRACTICAL. PROFESSIONAL.

Unleash your spirit of adventure and get ready to explore. Inside the Jimny 3-Door's down-to-earth design, you'll discover robust surfaces, sensible storage spaces and a flat rear luggage area at the ready. Everything you need – connectivity, entertainment and information are at your fingertips, so every minute on and off the road, is enjoyed without distraction.

TOUCHSCREEN INFOTAINMENT

The multi-media infotainment system features a high definition, infrared touchscreen with in-built smartphone connectivity through Bluetooth® and USB connection.

CLIMATE CONTROL AIR CONDITIONING

A high-contrast LCD display makes it easy to set the climate control air conditioning to your preferred comfort level (Sierra). There's even a special pollen filter that removes dust and other particles so you can breathe easy.

ANDROID AUTO™ AND APPLE CARPLAY

Connect your compatible smartphone via Android Auto or Apple CarPlay to access maps, play music, make phone calls, and send and receive messages by voice command or by tapping on the display.

REVERSE CAMERA

The reverse camera helps you park and reverse safely without having to twist around in your seat. When reversing, the touchscreen display shows the view of what's behind the vehicle and distance guidelines. (JX, JXN Carry and Sierra Manual).

PART TIME 4WD WITH LOW RANGE TRANSFER GEAR

On-road. Off-road. No road. The Jimny 3-Door has the torque and traction for every situation. On paved surfaces, 2H (2WD) mode offers a smooth, quiet ride with maximum fuel-efficiency. On flat dirt roads or in the snow 4H gives you 4WD traction combined with higher speeds. When the going gets really tough there's 4L mode for maximum torque and traction.

3-LINK RIGID AXLE WITH COIL SPRING SUSPENSION

When you want to take on the rough stuff you need full-width rigid axles in both the front and rear, and the Jimny 3-Door delivers. As an obstacle pushes one wheel up, the axle presses the other wheel down to increase tyre contact and traction. Whatever lies in your path – mud, loose rocks, slippery roots, Jimny's go-anywhere ability is legendary.

RIGID LADDER FRAME

Continuing from the very first generation, the Jimny 3-Door features a robust ladder frame for everyday comfort on the road, and solid driving stability off the road.

HILL HOLD AND HILL DESCENT CONTROL

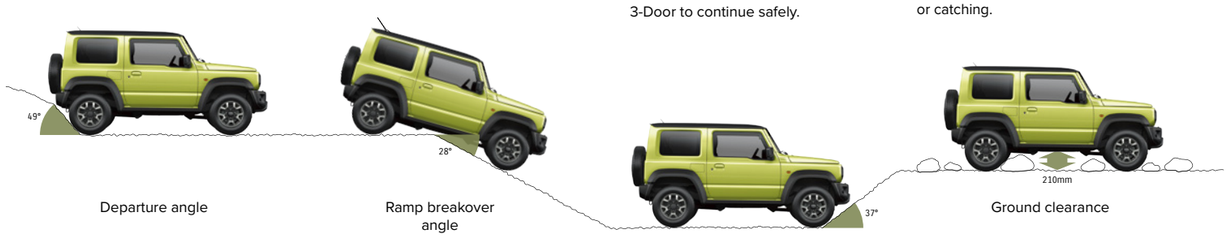

Hill starts are easy with hill hold control, and for tricky descents, the hill descent system automatically applies braking to maintain a fixed speed so you can concentrate on steering without using the brakes or clutch.

BRAKE LSD TRACTION CONTROL

Cover slippery ground with confidence. If two diagonal wheels lose grip while on slippery surfaces, the limited-slip differential traction control automatically brakes the slipping wheels and redistributes torque to the other two wheels, allowing the Jimny 3-Door to continue safely.

AMPLE BODY ANGLES AND CLEARANCE

The Jimny 3-Door lets you explore to the limit with generous approach, ramp breakover, and departure angles. Its high ground clearance lets you take on the steepest slopes, sharpest descents and gnarliest obstacles without scraping or catching.

GO SAFELY AND EXPLORE

Safety is important whether you're commuting in the city or toughing it out in the middle of nowhere. The Jimny 3-Door offers comprehensive protection with 6 SRS airbags, automatic headlamps and daytime running lamps, and the added confidence of Suzuki Safety Support – a suite of preventative safety features designed to detect potential accidents and help avoid them.

DUAL SENSOR BRAKE SUPPORT (DSBS)*

DSBS employs two different sensors to detect mid-to-long distances and pedestrians, as well as short distances and nighttime driving. These sensors collaborate to identify potential collisions and respond appropriately.

WEAVING ALERT

The weaving alert system monitors your driving patterns. If it detects wandering, often caused by driver fatigue, it issues both audio and visual warnings to help you stay focused.

CRUISE CONTROL

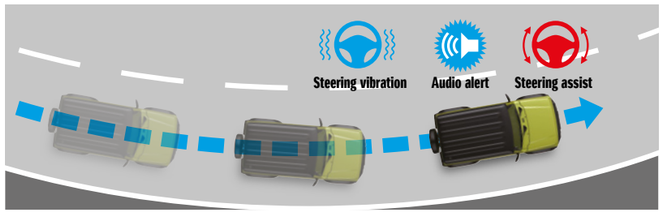

Use the cruise control to set a fixed speed for more efficient driving and to help reduce driver fatigue over long distances. Adaptive cruise control utilises millimetre-wave radar to maintain a set following distance automatically, adjusting based on your selected setting and vehicle speed (JX, JXN Carry and Sierra Manual).

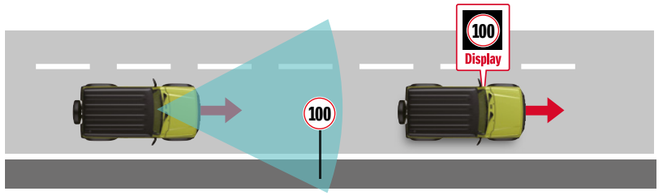

PARKING SENSORS

Parking is made easier and safer with ultrasonic sensors at the front and rear. These sensors detect obstacles and provide both visible and audible warnings to assist you (JX, JXN Carry, Sierra Manual).

6 AIRBAGS

Feel safe and secure with six airbags strategically placed to protect you and your passengers. This includes front, side, and curtain airbags, providing comprehensive coverage in the event of a collision.

LANE DEPARTURE WARNING AND PREVENTION

Stay securely in your lane with the Jimny 3-Door's lane departure system. At speeds of 60 km/h or more, the monocular camera detects lane markers. If you drift, it vibrates the steering wheel, provides a visual warning, and can steer you back into your lane. (Sierra Manual has Lane departure warning without prevention.)

TRAFFIC SIGN RECOGNITION

Stay informed with traffic sign recognition. This system detects and displays traffic signs on the multi-information display, helping you stay aware of speed limits and other important information (JX, JXN Carry, Sierra Manual).

*Please do not rely on the Advanced Forward Detection System. It is only an aid and the ability to detect obstacles and lanes, and control the vehicle is limited. Always drive safely.
