READY FOR MORE

Load up, the great outdoors is calling. With five doors, roomier interior, and down-to-earth practicality, the Jimny 5-Door is ready for action. You'll stay tuned to the beat of adventure with smart connectivity, entertainment and information at your fingertips.

MORE SPACE, MORE COMFORT

You'll enjoy the destination as much as the journey in the Jimny 5-Door's longer and roomier cabin. Relax in larger, comfier rear seats that recline in two locking positions or fold forward when you need the extra luggage space. Store all your items in the handy glovebox, front console, and storage pockets.

ACCESSIBLE LOADING AREA

Stow away your gear easily with the large back door opening and versatile boot area with light for added convenience. Connect camping accessories to the front or rear 12V power sockets.

LED LIGHTING SYSTEM

The auto light-sensing LED projector headlamps with manual washers turn on with nightfall or low-light. Daytime running, fog lamps and rear stop lamp round out the lighting system designed to keep you seen on the road.

9-INCH TOUCHSCREEN

The customisable infotainment system display features a 9-inch touchscreen for live vehicle information, digital clock, music playback and connectivity through Bluetooth®, Wi-Fi® and USB connection.

ANDROID AUTO™ AND WIRELESS APPLE CARPLAY

Connect your compatible smartphone via Android Auto or wireless Apple CarPlay to access maps, play music, make phone calls, and send and receive messages by voice command or by tapping on the display.

CLIMATE CONTROL AIR CONDITIONING

A high-contrast LCD display makes it easy to set the climate control air conditioning to your preferred comfort level. There's even a special pollen filter that removes dust and other particles so you can breathe easy.

REVERSE CAMERA

The reverse camera helps you park and reverse safely without having to twist around in your seat. When reversing, the touchscreen display shows the view of what's behind the vehicle and distance guidelines.

DARE TO EXPLORE

For the urban expedition or journey to the back of beyond, the Jimny 5-Door takes outdoor exploration to a whole new level. Featuring Suzuki's proven ALLGRIP PRO 4WD system, full ladder chassis, and generous clearance, departure and approach angles, its four wheel driving capability is off the charts. Before you know it, you'll be on top of the world.

ALLGRIP PRO

PART TIME 4WD WITH LOW RANGE TRANSFER GEAR

On-road. Off-road. No road. The Jimny has the torque and traction for every situation. On paved surfaces, 2H (2WD) mode offers a smooth, quiet ride with maximum fuel-efficiency. On flat dirt roads or in the snow 4H gives you 4WD traction combined with higher speeds. When the going gets really tough there's 4L mode for maximum torque and traction.

3-LINK RIGID AXLE WITH COIL SPRING SUSPENSION

When you want to take on the rough stuff you need full-width rigid axles in both the front and rear, and the Jimny delivers. As an obstacle pushes one wheel up, the axle presses the other wheel down to increase tyre contact and traction. Whatever lies in your path – mud, loose rocks, slippery roots, Jimny's go-anywhere ability is legendary.

RIGID LADDER FRAME

Continuing from the very first generation, the Jimny features a robust ladder frame for everyday comfort on the road, and solid driving stability off the road.

HILL HOLD AND HILL DESCENT CONTROL

Hill starts are easy with hill hold control, and for tricky descents, the hill descent system automatically applies braking to maintain a fixed speed so you can concentrate on steering without using the brakes or clutch.

BRAKE LSD TRACTION CONTROL

Cover slippery ground with confidence. If two diagonal wheels lose grip while on slippery surfaces, the limited-slip differential traction control automatically brakes the slipping wheels and redistributes torque to the other two wheels, allowing the Jimny to continue safely.

AMPLE BODY ANGLES AND CLEARANCE

The Jimny lets you explore to the limit with generous approach, ramp breakover, and departure angles. Its high ground clearance lets you take on the steepest slopes, sharpest descents and gnarliest obstacles without scraping or catching.

KEEPING YOU SAFE OUT THERE

While pushing the limits of adventure, safety is top priority for the Jimny 5-Door. Designed to offer unobstructed views and to give a better sense of vehicle position, this ingenious 4WD is next level. Equipped with six SRS airbags and Suzuki's Advanced Forward Detection System, you can count on the Jimny 5-Door to stay on track and bring everyone safely back to base camp when the adventure ends.

DUAL CAMERA BRAKE SUPPORT (DCBS)

The Jimny 5-Door features a forward detecting system using a dual camera attached to the windshield. The DCBS recognises vehicles, pedestrians, and lane lines and helps avoid collisions and damage through warnings and automatic braking.*

LANE DEPARTURE WARNING

Stay safely in your lane thanks to the lane departure warning function. At 60 km/h or faster, the cameras detect lane markers and if you drift, vibrates the steering wheel and gives you a visual warning.

WEAVING ALERT

This system calculates your driving pattern and issues audio and visual warnings if it detects you're 'wandering' due to driver fatigue, for example.

ADAPTIVE CRUISE CONTROL

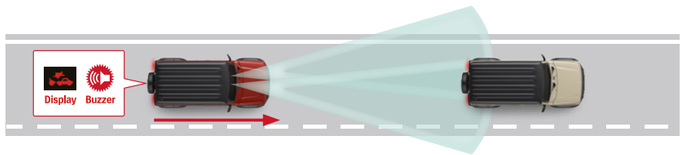

The adaptive cruise control system automatically maintains your following distance depending on the setting selected and vehicle speed (Auto). Cruise control (Manual) sets a fixed speed for efficient driving.

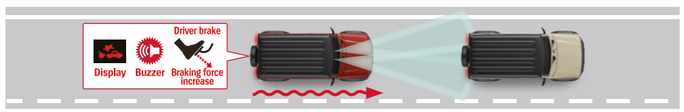

6 AIRBAGS

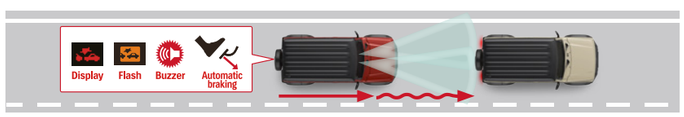

Jimny features six airbags for the driver and passenger seats including SRS front, side, and curtain airbags for safety and protection.

PARKING SENSORS

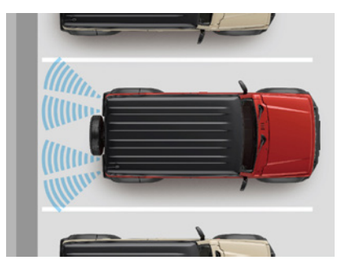

Parking is safer and easier with four ultrasonic sensors in the rear bumper that detect obstacles and send you a warning you can both see and hear.

*Please do not rely solely on the Advanced Forward Detection System. It is only an aid and the ability to detect obstacles and lanes, and control the vehicle is limited. Always drive safely.
