LEANER, MEANER, SWIFTER

In a league of its own, the Swift Sport takes its legendary status to even greater heights. With advanced turbocharged performance, outstanding torque, sharp handling, and lightweight body, this iconic ‘hot hatch’ is designed to thrill. Its latest safety technology, effortless power, and ruthless efficiency make it a masterpiece of motion.

TWO TONE

Burning Red Pearl Metallic with Super Black Pearl (D7Z)

Frontier Blue Pearl Metallic with Super Black Pearl (E6L)

Flame Orange Pearl Metallic with Super Black Pearl (CFK)

Burning Red Pearl Metallic (ZWP)

Champion Yellow (ZFT)

Pure White Pearl (ZVR)

Premium Silver Metallic (ZNC)

Mineral Grey Metallic (ZMW)

Super Black Pearl (ZMV)

IN TOTAL CONTROL

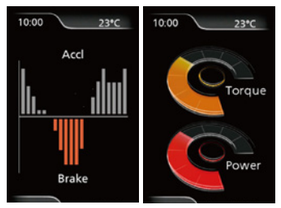

Laser-focused on delivering the ultimate driving experience, the Swift Sport's cockpit is intuitive and responsive. Take charge in a true driver's car with six speaker audio system, D-shaped steering wheel, alloy pedals, rich red-black interior hues and race-inspired features.

CLIMATE CONTROL AIR CONDITIONING

Whatever the season, whatever the conditions, the digital climate control air conditioning and pollen filter make it a breeze to adjust your comfort level.

ENGINE PERFORMANCE DISPLAY

The Swift Sport features an advanced multi-functional display that displays a range of information such as digital running speed, turbo performance, G force, engine output and economy.

KEYLESS ENTRY AND START

Unlock the Swift Sport by pressing a button on the door handle, and start the car while the keys are safely in your pocket or bag.

SEMI-BUCKET SPORTS SEATS

Slip into the comfortable semi-bucket seats with red double stitching, embossed "Sport" logo and side and shoulder bolsters to keep you snug around tight bends.

TOUCHSCREEN WITH ANDROID AUTO™ AND APPLE CARPLAY

The multimedia infotainment system features a high definition touchscreen with smartphone connectivity through Bluetooth® and USB connection to Android Auto™ and Apple CarPlay. Connect your compatible smartphone to access navigation maps, stream music and podcasts, make handsfree phone calls and voice activated texts, and use other driver safe apps.

REVERSE CAMERA

Cleverly integrated, the built-in reverse camera helps you park and reverse safely without having to twist around in your seat.

LED LIGHTING SYSTEM

The auto levelling and light-sensing LED projector headlamps turn on with nightfall or low light. The LED daytime running lamps keep you visible while easing electrical usage.

ELITE PERFORMER

Concrete jungle or the wide open road – the twin-exhaust Swift Sport excels with dynamic manoeuvrability and road holding performance. Adopting Suzuki's lightweight HEARTECT platform, its 970 kg kerb weight and outstanding 4.2:1 weight-to-torque ratio (kg:Nm) means business, whatever the road ahead.

TURBOCHARGED EXCITEMENT

Get your pulse racing with the Swift Sport's championship-worthy BoosterJet turbo engine. This intercooled powerhouse is a technological tour de force, producing maximum torque from just 2500 rpm. Designed to pump up power but not the petrol bills, this compact, lightweight and fuel-efficient engine features a wastegate valve to control boost pressure, quicken response and lower fuel consumption. A short port intake and exhaust manifold are integrated within the cylinder heads for a lighter, more compact engine and heart-racing acceleration.

POWER: 103 kW @ 5,500 rpm
TORQUE: 230 Nm @ 2,500-3,500 rpm
FUEL: 6.1 L / 100 km combined NEDC
CO2: 141 g/km combined NEDC

DIRECT INJECTION

The direct injection system further enhances the BoosterJet's power and efficiency by optimising the amount of injected fuel as well as the timing and pressure. Seven-hole injector nozzles atomise fuel for more efficient combustion, cleaner exhaust and exhilarating performance.

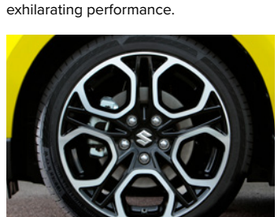

6-STAGE AUTOMATIC

The gear ratios of the 6-stage automatic have been chosen for optimum acceleration, matched to the strong torque characteristics of the engine. Paddle shifters enable manual gear changing to maximise the Sport experience.

6-SPEED MANUAL

The sport-grade six-speed manual transmission is built to maximise the performance of the turbo engine. Shifting is accurate with just the right feeling of resistance, thanks to short shift strokes and an optimised clutch engagement point.

17-INCH PERFORMANCE ALLOYS

The Swift Sport's diamond-cut alloy wheels are thinner yet stronger, with reduced rotating weight for better acceleration and more responsive handling.

OPTIMISED BRAKING

With large ventilated front discs and solid rear discs, the Swift Sport has superior braking power and fade resistance.

MONROE® SHOCKS

Swift Sport has a lower stance with race-tuned Monroe® shock absorbers. These are paired with a specially designed stabiliser for increased rigidity and Teflon mounts for reduced friction.

STATE-OF-THE-ART SAFETY

Safety goes hand in hand with superb performance and behind the controls of the Swift Sport, safety levels are at all-time high. In addition to the six SRS airbag system, it features a suite of accident avoidance and electronic driver assistance technology, designed to protect you and your passengers.

DUAL SENSOR BRAKE SUPPORT (DSBS)

Collision risk is lowered in the Swift Sport with an autonomous emergency braking system which uses a monocular camera and laser sensor to detect vehicles or pedestrians in front. If a collision is imminent, DSBS issues a warning or engages automatic braking.

LANE DEPARTURE WARNING

Stay safely in your lane thanks to the lane departure warning function. At 60 km/h or faster, the monocular camera detects lane markers and if you drift, vibrates the steering wheel and gives you a visual warning.

WEAVING ALERT

This system calculates your driving pattern and issues audio and visual warnings if it detects you're 'wandering' due to driver fatigue, for example.

ADAPTIVE CRUISE CONTROL

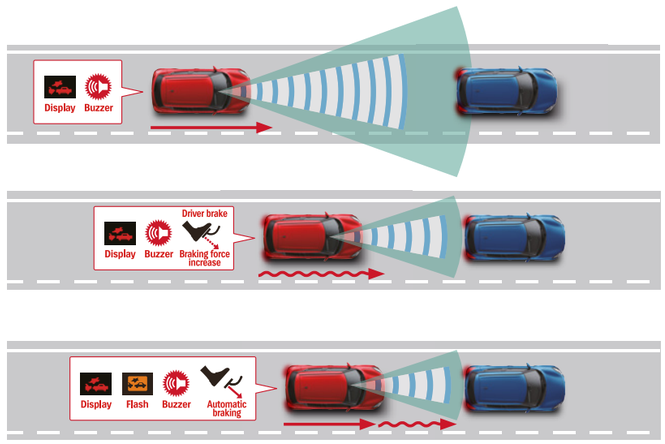

The adaptive cruise control system uses millimetre-wave radar to automatically maintain your following distance depending on the setting selected and vehicle speed.

HEADLAMP HIGH BEAM ASSIST

At 40 km/h or faster, Swift Sport's high beam assist can automatically switch the headlamps between high and low beam depending on the presence of other vehicles and the lighting environment.

PARKING SENSORS

Parking is safer and easier with ultrasonic sensors in the rear bumper that detect obstacles and send you a warning you can both see and hear.

REAR CROSS TRAFFIC ALERT

This assists the driver to manoeuvre more safely out of parking spaces where vision is obscured. When reversing, at speeds of up to 8 km/h, the vehicle uses two rear mounted side radar sensors to assist the driver by alerting them of approaching vehicles on either side. The driver is given both a visual alert on the multi information display and a warning sound.

BLIND SPOT MONITOR

Lane changing at speeds above 15 km/h is made safer by two rear mounted side radar sensors capable of detecting vehicles located in or approaching the rear blind spots on either side of the vehicle. When a vehicle is detected a warning LED icon is illuminated in the exterior mirror. If the driver indicates to change lanes, a flashing LED icon is accompanied by a warning sound alert.

Please do not rely on the Advanced Forward Detection System. It is only an aid and the ability to detect obstacles and lanes, and control the vehicle is limited. Always drive safely.

Specifications

INFOTAINMENT		
Touchscreen		●
Six speaker tuner/SD		●
Bluetooth®		●
Apple CarPlay and Android Auto™		●
Smartphone connected navigation		●
USB and auxiliary inputs		●

INSTRUMENT PANEL		
Tachometer		●
Information display	4.2-inch colour LCD	●
	Digital clock	●
	Outside temperature gauge	●
	Fuel consumption (instant, average, range)	●
	Engine performance screens	●
	Gear position indicator	AUTO
	Digital speed (running, average)	●
Lights-on and key reminder		●
Door-ajar warning indicator		●
Seatbelt reminder for all seating positions		●
Fuel warning indicator		●

INTERIOR		
Climate air conditioning with pollen filter		●
Keyless entry and push-button start		●
Steering wheel	Leather and piano black appointed	●
	Cruise, speed limiter, phone and audio controls	●
	Tilt and telescopic adjustable	●
	Paddle shifters	AUTO
Driver's side seat height adjuster		●
60:40 split-folding rear seats		●
Adjustable rear head restraints x 3		●
Assist grips x 3		●
Sport seats with red stitching and embossed logo		●
Red fade to black interior accents		●
Sports alloy pedals		●
Ticket holder & vanity mirror on both sides		●
Front seatback pocket - passenger's side		●
Drink holders x 7		●
Removable luggage area cover		●
Luggage area light		●
